COOPERS XI

IN MEMORY OF COOPER-J BAKER

WHY WE DO IT

Coopers XI was created in memory of our little boy, Cooper-J Baker. Although he is no longer with us in person, he will always be part of our family, our lives and everything we do.

WHAT WE DO

Through football, fundraising and bringing people together, Coopers XI creates events that keep Cooper's memory alive while helping support other families and good causes. We organise charity football matches and community events, raising money and awareness for charities that make a difference to people going through some of life's hardest moments.

MORE THAN FOOTBALL

For us, this is about more than what happens on the pitch. It is about friendship, family, remembering those we have lost and turning something heartbreaking into something positive. Every player, volunteer, sponsor, donation and supporter becomes part of Cooper's story.

OUR CHARITY SUPPORT

We are proud to raise money for Vilomah Baby Loss Charity and Farleigh Hospice. Vilomah provides compassionate support for families affected by baby loss, including specialist bereavement support. Our fundraising is our way of helping other families feel less alone.

OUR PURPOSE

To remember. To raise awareness. To raise money. To bring people together. And above all, to make sure Cooper's name continues to mean something.

Mental health matters.

We're here for a brighter tomorrow.

MIND CHARITY FOOTBALL TEAM
Better mental health brighter futures
TOGETHER WE'RE STRONGER

Better mental health for everyone.

What is Mind?

Mind is a leading mental health charity in England and Wales. We're here to make sure no one has to face a mental health problem alone. We provide advice, support and campaign for better mental health for everyone.

What we do

Provide support
We offer information, advice and services to help people with their mental health.

Be there for communities
We work with local services to support people where they live.

Campaign for change
We speak up to improve mental health services, policies and understanding.

Raise awareness
We challenge stigma and help create a kinder, more open society about mental health.

Why we do it

Mental health problems can affect anyone. They can make everyday life feel overwhelming and can impact relationships, work, study and physical health. Yet too many people still face stigma, lack of understanding and limited access to support.

We believe everyone deserves good mental health and the chance to live a fulfilling life. That's why we do what we do.

> "Mind gave me the information and support I needed at a time when I felt completely alone. They helped me find hope again."

Reviews

"We used Lee and his team at very short notice and needed the job done immediately, within just 4 days. From the first contact, Lee understood the urgency and was extremely helpful.

The quote was very reasonable for a 3 bed house, and the whole process was smooth from start to finish. The team worked professionally, efficiently, and delivered exactly what was promised.

As agreed, all carpets were fully fitted within the timeframe, and the finish looks great. Reliable, professional, and a great local business, highly recommended "★★★★★
